Flyin Scheduled At Airport Expected To Attract Crowd

Andrew Creglow, manager of the Truckee Tahoe Airport and coordinator for the second annual flyin scheduled this weekend, announced this week that a mountain flying course will be added to the program during the two days of the flyin.

Fliers are due to start arriving Friday and will return Sunday afternoon following the 2 p. m. barbecue at the Ponderosa Golf Club. In the interim, parties and banquets have been arranged at the North Tahoe Clubs and a golf contest at the Ponderosa. Jack Ellis will be in charge of the barbecue.

More than 250 fliers and their guests are expected and chamber of commerce representatives from North Tahoe and Truckee will be hosts on the occasion.

The glider program, now operating at the airport will be an added attraction and is carrying passengers on thrilling flights into air above the field which is declared ideal for the purpose.

Smith's Appeal To Be Heard June 16

The Nevada County Board of Supervisors will hear arguments on the appeal of Ray W. Smith of the Alpine Smith Construction Company on a decision by the county planning commission refusing him a permit to construct a garage on property he purchased on the Brockway cutoff at 2:30 p. m. next Wednesday.

Smith purchased the property and was given a verbal ruling that a permit was not required to construct the building. Later the ruling was reversed by the commission on the grounds that it was a commercial garage although Smith planned to use it to repair his own equipment and not for general use.

Planning Director William Roberts said the reversal of the oral ruling, if upheld, would be a far-reaching decision as there are numerous similar situations in the county.

Crux of the matter may be the interpretation of the term "commercial garage" in the zoning ordinance as it applies to A-1 zoning.

Books Shipped To Appalachia Area

Community response to the Truckee PTA appeal for "Books for Appalachia" made the project a success, according to Mrs. John Houlgate, local chairman.

"Books for Appalachia" has been a national parent-Teacher Association project this spring. The goal was for local PTA units across the nation to collect one milllion books. The books are being shipped for distribution in areas of the Appalachia Mountains where thousands of children live in communities without public or school libraries.

Mrs. Houlgate announced that six bookcase boxes of books donated by local residents will be shipped this weekend.

The specially designed wooden cases were built by the high school shop classes, under the supervision of Mr. Greene. After the books reach their destination, these boxes will be stacked in classroooms where they will serve as bookcases.

Mrs. Houlgate expressed appreciation for community cooperation in the project; the many volumes of books, the gifts of money to help defray shipping costs and the donation of labor to construct the boxes.

DONNER PARK BUSY AS ALL UNITS OPEN

Although work of clearing and cleaning is going forward at Donner Memorial State Park, all of the 150 camp sites are now open and are being utilized by vacationers and tourists.

Pete Tallant, assistant supervisor at the park, said many motorists seeking accommodations during the Memorial Day weekend were turned away as the camp recorded the busiest weekend in its history.

Jail Should Have Attendants When Anyone Confined

"We are not aware of any law requiring constant supervision of jail prisoners. However, it is uniformly considered safe and appropriate procedure to have free personnel in attendance at any time a prisoner is behind a locked door."

This opinion was expressed by the state board of corrections in reply to an inquiry concerning procedures at the Truckee jail.

Joseph A. Spangler, administrative officer for the board said that constant supervision certainly should be considered mandatory where minors are involved. Also, good jail standards call for a matron to be on hand around the clock where women prisoners are housed.

"If a twenty-four hour supervision is not provided, there is no question that the county is liable for injury or death. There are numerous instances in California where local communities have payed damages in cases of injury or death. Even in those cases where damages were not awarded, the cities and counties have been required to expend considerable amounts in defending themselves," Spangler explained.

Because of a shortage of deputies, it is virtually impossible to maintain 24-hour supervision at the Truckee jail and Sheriff Wayne Brown has petitioned the board of supervisors in his budget request to provide for four additional deputies in the Truckee office. Currently there are three deputies and a sergeant assigned here.

Lou Hartman Will Serve County Board

"Hartman has been active in the business and civic life of the area for 20 years and has an outstanding record of community service", the governor said. "His knowledge of county affairs and local problems and his record of civil contributions equip him admirably for membership on the board of supervisors.

Lookouts Posted As 12th Fire For Season Reported

The twelfth fire in the Truckee district of the Tahoe National Forest and the first not man-caused, was battled on Alder Creek one and a half miles west of Highway 89 Sunday at 1:30 p. m. The blaze, believed to have started from a "sleeper" lightning fire last Thursday, consumed half an acre before it was stopped.

Two tankers and 11 forest service men, plus a few fishermen in the area battled the blaze in a brisk wind.

Additional precautions were taken last week against a major fire when the two lookouts were posted, three additional suppression crew men and three more patrolmen were employed.

Fred Scott was installed for the 13th year on Martis Peak and within an hour after he started work he discovered the Alder Creek fire. Harold (Doc) Thornton resumed his lookout post at Stateline.

The trusty helicopter is expected about the 15th of June and the crews will be up to summer strength by that time, according to Ranger Dave Mohla.

The warm dry weather and brisk afternoon winds are creating a serious fire hazard in the forests and everyone is being urged to obey all rules concerning fire in the forest and to be extremely careful.

Cancer Crusade Is Started In District

Truckee volunteers have been busy on the campaign of collecting funds to assist the Crusade Against Cancer and letters are in the mail to local residents this week. An intensive "Tell Your Neighbor" drive is part of the society's nation-wide cancer drive this year.

Many areas in the local tri-county branch have sponsored card parties, rummage sales and other activities to aid the crusade.

One of the features of the drive this year was the issuance of a cancer commemorative postage stamp issued for the first time on April 1. The stamp carries the message: "Early Diagnosis Saves Lives." Early diagnosis is the major objective of this year's crusade. It was pointed out that 50 years ago few cancer patients had any hope for recovery and today, one out of three patients is saved.

Scenic Hiway Bill Tabled; Chamber Will Apply Again

Senate Bill No. 348, introduced by Senator Paul Lunardi and coauthored by Assemblyman Gene Chappie, which would have included a portion of old Highway 40 over Donner Summit in the state scenic highway system, has been "taken under advisement" and is dead so far as the current session of the legislature is concerned.

This was revealed in a message from Senator Lunardi to Francis Longo, chairman of the Truckee Donner Chamber of Commerce highway committee last week.

The local chamber was urging passage of the bill which included numerous highways throughout the state.

Under terms of the proposed bill, the highway from Kingvale to Donner State Park, including the portion along Donner Lake and over the summit via Soda Springs would have been established as a scenic highway.

While there is apparently no chance for the bill at this session, further efforts to include this historic route in the scenic system will be made, N. F. Dolley, chamber president, informed the members at a meeting held yesterday at Donner Lake Lodge.

In other action, the chamber made final plans for the annual flyin at the Truckee Tahoe Airport Saturday and Sunday.

Valuable Cameras Stolen From Auto

Two valuable 16mm movie cameras, a suit of men's clothes and a woman's coat were stolen from the parked car of Mr. and Mrs. John Firpo in Kings Beach Saturday night. One of the cameras was the property of TV 4 at Reno where Firpo is employed and the other was a Bell and Howell, belonging to Firpo.

A portable light bar was also removed from the car which had been parked briefly near the home of Mrs. Firpo's parents, Mr. and Mrs. Charles Rich. The gasoline was siphoned from the tank, reportedly a common practice in the area this spring.

Firpo is offering a $150 reward for information which will lead to the recovery of the cameras with no questions asked. Information may be left with Cabona's in Truckee or by phoning 587-3161.

A letter of opposition was read from William F. Bechdolt of Tahoe City, member of the California Nevada Interstate Compact Commission.

NEWS FROM DONNER TRAIL

By Betty Kielhofer

I'm afraid I'll have to agree with Vi White about too many tiny tots playing in the streets. No amount of speed laws in subdivisions will guarantee their protection. A fenced yard is a small expenditure compared to the life of a child. Streets are an expensive playground from the taxpayers' point of view. The responsibility for their safety lies strictly with the parent and an ordinance which might be effective would be one to hold them responsible when they habitually do not give reasonable supervision.

Jennie and Mike Rafton were up Sunday from Piedmont to open their Sportsman's Port at Tahoe Vista for the summer. They were fortunate to get a nice couple to run it for them this year so will be able to relax on their weekends up just like 'tourists'. They have been making investments in our area and hope to do more as they believe it has great potential and this is something, coming from people who have been living on the shores of Tahoe for the past seven years. Mike's latest venture was to become one of the largest stockholders in the Central Valley National Bank in Oakland where he has been making headlines in the financial pages of the bay area paperson lately. If he has his way, we will see many new and unthought of ideas going in here in the next few years.

A large group of us recently had our first outdoor barbecue at McKay Springs and it was really great to see all the snow gone and easy access once again. The season is on and it couldn't be nicer.

It's great to see all the students from the various colleges come 'flooding' into town again and to hear all the 'ohs' and 'ahs' after final exams. I think if we took a count, precentage wise, this area could be very proud of the amount of students leaving our high school to attend college. This says something pretty complimentary of our school system.

IMPROVED VEHICLES FOR STATE OFFICERS

New California Highway Patrol cars will be equipped with front wheel disc brakes and rear window defrosters starting July 1, Commissioner Bradford M. Crittenden said today.

The decision to seek these equipment items followed experimentation in various areas of the state.

"We have had eight cars with disc brakes and twenty cars with rear window defrosters on the road for several months. Our experience with both has been that they will increase the safety of the officer behind the wheel."

The disc brakes and defrosters will be supplied on both 1965 and 1966 year model vehicles. The patrol will purchase 334 of the 1965 model and 557 of the 1966 model.

The California Fish and Game Commission Friday adopted hunting seasons and bag limits for the period July 1, 1965, through June 30, 1966.

Except for special district 1 ¾, the late deer season will open September 18. Final day of deer hunting in the northwesterly part of the state will be Sunday, October 31. In the remainder of the late season areas, the season will close on November 7.

Late season bags will be limited to two bucks, forked-horn or better, in the northwestern part of the state. One deer, forked-horned or better, will be the limit in the balance of the late season area.

The late archery season runs from August 28 through September 12.

The state wide bear season will be from Saturday, September 18, through Sunday, January 2. Bag and possession limits remain at two per person.

The commission did not set any regulation on deer in District 1 ¾ in norteastern California since authority to do so has been withheld by the state legislature.

Pat McCafferty brought a very interesting hornet's nest for a science study.

First Grade—Mrs. Kelly: Star spellers last week were Dave Butterfield, Matt Gregory, Chris Hodgkins, Rookie Holbrook, Craig Poulsen, Mandy Ballenger, Billy Money, John Skerry and Kim Pier.

Last week some of our helpers were elected by the class. Those chosen were John Skerry, president; Karla Read, secretary; Mandy Ballenger and Dave Butterfield, line leaders.

Thank you's from our whole class to Mrs. DeWalt and Mrs. Shaver for all their help this year.

The children are learning the rules and enjoying the game of kickball during the good weather. Mrs. Steinhauser and Mrs. Read wish to thank all the parents for their help and patience during the Peter Pan production.

Third Grade—Mrs. Long: The children who received 100 per cent in an arithmetic speed test last week were Henry Barwin, Steven Bodine, Jeff Duttweiler, Peter Johnson, Martin Novak, Guy Tomlinson, Kenny Gonzales, Meredee Baker, Vernon Holmwood, Cathy Butterfield, Mary Puisis, Linda Siegal, Susan Ruhkala and Connie Christopherson.

Two boys celebrated birthdays last week. They were Guy Tomlinson and David Bryan.

Seventh Grade—Mrs. Goodhue: As we come to the end of the school year our class would like to express their appreciation to our Room Mothers, Mrs. Hoxsie, Mrs. Holley and Mrs. Martin for all they have done to make our class parties such a success.

Our class officers have done a wonderful job, with special recognition going to our class presidents Herby Clegg, Kathy Laskey and Dennis Taylor.

The audio-visual boys for our room deserve our special thanks, Tom Rogers, Brent Bradley and Herby Clegg.

We have missed Rick Holley during the past few weeks, but we are happy to know that he is recovering rapidly from his operation.

Seventh Grade—Mrs. Brower: Our class recently enjoyed a very pleasant outing. We studied our immediate and near-immediate plant life environment, with particular interest in the coniferous forest of the west side of the Sierra.

Next, we shall take a hike up into the Hudsonian Zone to meet the Western White Pine and the Mountain Hemlock.

These kids are going to know their Sierra very well one of these days.

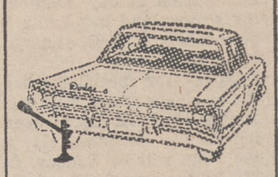
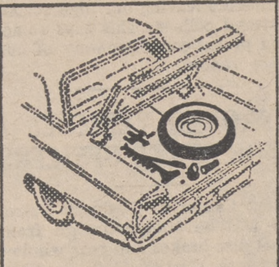
SAFE JACK HABITS

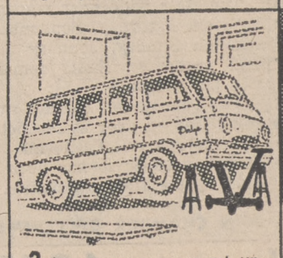
by The Jack Institute



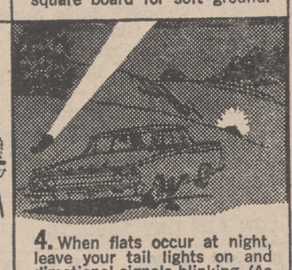
1. Use your car jack on firm, level ground only. If the ground seems soft, a flat board or stone may be placed beneath the jack to increase the bearing surface. Block the wheel diagonally opposite the flat by placing chocks or stones to keep it from rolling. After setting the emergency brake, put cars with standard drive in reverse and cars with automatic in park. Loosen, but do not remove wheel nuts before starting to jack.



2. Always pull off the road and well out of traffic, even at the expense of ruining the tire. (Your tire can be replaced.) Equipment should include a jack of reputable make, lug wrench, flashlight, flares, a properly inflated spare tire (check the pressure regularly), and a foot-square board for soft ground.



3. In a garage, never get under a car unless it is supported by jack stands. Jacks are lifting mechanisms, not deadweight supports. Bumper jacks are standard with many makes of car; for heavy cars an axle jack may be better. As an added safety measure your jack should have higher rated capacity than needed for your car.



4. When flats occur at night, leave your tail lights on and directional signals blinking. (As an extra precaution the system can be altered to flash all lights simultaneously). Flares or markers should be placed 100 feet away to warn approaching or following motorists. A good make-shift flare is a wax-covered milk carton which burns slowly and throws enough light to attract attention.

In California, after golf **beer's the one... for good taste, good fun**

After a hard-played 18 holes, it's good to settle down on a soft chair in the club house and add up the score with friends. What better time for the drink that scores with almost every golfer—cool, thirst-quenching beer? Yes, beer's great to relax with, great for refreshment, great for taste. So whatever your sport—boating or baseball—swimming or tennis—relax afterwards with the zestful taste of beer.

Back to Nature this past weekend when we camped out at Tahoe Vista, and when we say camped out we do not use the phrase loosely—no electricity, no water, no plumbing. Fortunately we could eat at Alario's Sandy Beach Cafe and so did not have to build a fire, Nothing like being a tourist at Lake Tahoe!

Visited with Jack and Velda Farris at Incline Village and Fred and Alysmae Schultz and son, Freddie, and his bride, Dianne, at Crystal Shores. Readying the boat for an excursion on the lake. Also visited briefly with Yvonne McCoy and family.

Dick Jarrett back to Tahoe Vista for the summer from Pear Blossom.

Mae Critchley of Tahoe Vista looking slim and trim—the walks were off during the winter for those who asked because they missed seeing her hiking up to Kings Beach.

Kathy Critchley, Shari Bell, Steve Williams and Susan Hawkins practicing their speeches for graduation from Kings Beach Elementary School. Mickey Barker will give the welcoming speech.

Coming from Woodland were Donnard and Shirley Olson and children, Kimberly and Tracie, and coming from Monterey were Norman and Donna Kamp and children, Katrina and Karen, to attend Donnard and Donna's sister, Sandi, graduation from Truckee-Tahoe High. They also visited mother and husband, Lazelle and John Miller.

Lazelle and John visited her brother and wife, Albert and Thelma Osborne, at Wheatland over the weekend.

Robert and Darlene Osborne and son, Robin, of Reno visited his cousins Lazelle Miller and Iris Alario at Tahoe Vista. The Osbornes have recently moved from San Jose to Reno where Dr. Osborne purchased the practice of the late Dr. William E. Quinn who was lost in air crash in Mexico last January.

The Osbornes came up from Reno on their Honda and everyone had a lot of fun with it.

Congratulations to Walter and Louise Xavier of Alamo, and summer residents of Donner Lake, who recently celebrated their 25th wedding anniversary. Friends surprised them with a party, gifts and movies were taken to relive the occasion.

DONNER DOINGS....

By Vi White

Donner Lake received its second plant of Rainbow trout Tuesday. The thousands of catchable ten-inchers and larger fish will make the shore fishermen happy. Trollers are still netting those delicious land-locked salmon, the kokonee, however. A helicopter was used last week for the first plant, quite a sight.

Uncle Terry Marquette landed his first mackinaw, a three pounder the other day right from the Donner Shore Resort dock with a live minnow.

Yes, it's uncle Terry now, his younger sister Jackie, Mrs. Robbie Kaspian, gave birth to a baby boy last week. Young grandma, Marilyn and gramps Jack, are doing fine, as is proud and happy great grandma Mrs. Neel.

The water level is creeping up each day with about two feet more to go and lots of snow around yet to melt.

* * *

Dawn Whitney and her husband, Emmett, have returned to their cabin in the Weeks tract at the west end of the lake and report that several property owners got to gether during the three-day Memorial Day weekend to reenforce the bridge over Summit Creek to their area. It is passable for cars, but not to heavy equipment or trucks. The Christmas storm did considerable damage to roads and washed away parts of the creek bank.

Members of the Donner Lake Property Owners' Association and others have been waiting for an answer from the Nevada County Board of Supervisors to approve a road assessment district in the west and south area. Until a decision is made and work started, it is up to each individual property owner to keep up the roads fronting them. Bill Knapp's equipment has been seen scraping Southshore Drive on some of the rough places.

* * *

A portion of old Hiway 40 is being torn up, regraded and widened near the Donner Memorial State Park entrance to enable cars turning left into the park to do so without holding up east bound traffic. It was nice to learn that freeway traffic will not be diverted down on the old highway during finishing work on the new route this summer.

The summer session will begin June 21 for two months from 9 to 11:30 each morning. Mrs. Stiles of San Jose will be in charge, but for further information phone Rev. Evans. A large room at the church will be available as well as the surrounding grounds under the pines.

Don't forget the rummage and white elephant sale at the Capitol in Truckee Friday and Saturday. Many nice usable items will be sold to help pay for equipment needed by the Donner Lake Volunteer Fire Department. Donations of articles are greatly appreciated.

"Kit" Carson White recently received an award from the Far West Ski Association for "outstanding contributions to the advancement of skiing". As ski editor of the San Francisco Examiner for the past ten years, he has written many articles to promote the sport. White spoke at the last meeting of the Lake Tahoe Ski Club to help inspire younger skiers to aspire for national honors. He also complimented the LTSC by naming them as the most active and best organized club in the west. "Kit" is still president of the U. S. Ski Writers Association.

The Case of the HIDDEN WATER HEATER

OR One More Reason Why Electric Heating Is Best

That's right, you may actually *hide* your electric hot water heater. It requires no air circulation, there's no combustion (hence no expensive-to-install venting system), it is cool and insulated (you can store things next to it and it's safe for children, too). Your electric water heater can be installed anywhere, in the kitchen, utility room, attic, basement, under stairs, even in a closet.

HERE ARE SOME MORE ADVANTAGES

It's AUTOMATIC — Your electric water heater doesn't require a bit of attention. Turn on the faucet and the hot water is there.

It's SAFE — The shell is completely enclosed. There is no flame, no exposed heating units or controls.

It's EFFICIENT — Because thick insulation keeps all the heat *inside* the tank all the heat goes *into* the tank. None of it is wasted in a vent or chimney.

It's LONGER LASTING — Since all the heating elements are not at the bottom of the tank there is less scale and corrosion at the base.

It's TROUBLE-FREE — There are no moving parts to wear out, no valves to stick, no burners to clog. And of course there's no possibility of leaking fuel or fumes.

CONSTANT TEMPERATURE

The typical heater is designed so that 80 to 90 percent of the water can be drawn off without the incoming cold water noticeably lowering the temperature, a trick that's accomplished by a cold water baffle. Each typical tank contains not one heating unit but two, one at the bottom and one at the top of the tank. The top unit operates only when there is an extra heavy demand for hot water. The top and bottom thermostats are interlocked so that only one unit can operate at a time.

It all adds up to efficient and trouble-free operation. And of course efficiency means economy. That's important too.

Proposed legislation to reduce excise tax on new passenger automobiles provides a refund of such tax reduction where a passenger automobile is sold to a retail purchaser after May 14, 1965 and before July 1, 1965, when the excise tax reduction becomes effective. Where a refund is authorized by this legislation, General Motors Corporation will make a cash payment to such a purchaser in the amount of the excise tax reduction.

BILL WOULD DOUBLE PERSONNEL OF CHP

SACRAMENTO — (CNS) —Proposal of State Senator Randolph Collier, D-Yreka, to double the amount of highway patrolmen in California, from 2,500 to 5,000 officers, will be supported by Governon Edmund G. Brown, he announced today.

The governor said the proposal, contained in SB 317, "will save hundreds of lives, and many, many millions of dollars in personal and property damage."

It is estimated the increase in traffic partolmen will cost approximately $40 million a year. The plan would be financed through a three-step increase in vehicle registration fees, from the present $8 to $9 the first year; to $10 the second year, and $11 the third year.

SAN FRANCISCO—The Board of Directors of Fibreboard Paper Products Corporation today declared a regular quarterly dividend on the common stock of the corporation, in the amount of 35c a share, payable June 30, 1965 to stockholders of record June 9, 1965.

May Dates—

Charles Carroll celebrated his birth date May 22 with his family and Mrs. Charles Fink was feted May 30 by her family and friends.

Rufus De Vane King, elected vice president in 1852 under Franklin Pierce, took the oath of office in Havana, the only vice president to do so in a foreign country.

look, mom, no chimney!
That, son, is a home that's completely heated by electricity. And in the years ahead, it's likely that more homes will be heated by electricity than by any other method.
Electric home heating is the really modern way—clean, automatic, safe, and so convenient. You can have a chimney if you want it, of course, but you'll save many dollars on home building with easy-to-install, economical electric heating.
Ask us for details, or see your electric wiring contractor about the ideal way to heat your home . . . electrically.

A Kayak race, with the Marier brothers Chuck and Ernie starring, was the highlight of the Optimist family picnic held at Tahoe Marina Lodge last Sunday afternoon. There was a field of twenty entries in the race and among those who valiantly tried to overcome the Mariers were Max Bennett, Jim Barclay, Mike Mariani, Bill Ransom, Monty Huckle and Doc Coates. Doc was fouled out by decision of starter-timer-judge John Kearns. An unnamed entry who paddled in last had the distinction of keeping his feet dry although wet everyplace else.

An afternoon of games and swimming was followed by a steak barbecue. In charge of arrangements for the day were George Wellings, George Davis and John Kearns.

Action Postponed On Gravel Plant

The Placer County Planning Commission has postponed until August any action on the controversial gravel plant proposal on Ward Creek at Lake Tahoe to give the developer time to see if he can meet state and local requirements.

The hearing will be held August 13. This was decided on by a 4 to 3 vote by the commission after they had heard a stream of protests against the development.

Commissioner A. A. Hayman of Tahoe asked for the delay. Voting in favor of the development were Hayman, George Feil, James McMahan and Roy Mikkelsen.
